I have clarified the following:

1. We can't approve the use of gas cards or vouchers.
2. For questions #1 and #2 below: salary for support staff can be covered (they are part of service delivery for patients even though not direct care providers) and training required for service delivery for the purposes of the funding can also be covered.

Let me know if additional questions surface as you begin the review process for subcontractors.

Hi Diane,

I hope you are doing well! We are wrapping the application process today and have a few more questions:

1. Can Management/Program Coordination staff salaries be covered even if they do not have direct patient contact? (they manage and oversee the programs and services that are covered)
2. Can trainings for ultrasound, sexually transmitted infection testing, CPR, etc... be covered?

Thank You,

Christina Middleton
